

## 2025-26 Local Performance Indicator Self-Reflection

Local Educational Agency (LEA)	Contact Name and Title	Email and Phone
Fusion Charter	Susan Norval Nisan Principal	snisan@fusioncharter.org (209) 667-9047

# Introduction

The California State Board of Education (SBE) approved standards for the local indicators that support a local educational agency (LEA) in measuring and reporting progress within the appropriate priority area.

This template is intended as a drafting tool and based on the Local Performance Indicator Quick Guide published by CDE in January 2024.

## Performance Standards

The approved performance standards require an LEA to:

- Annually measure its progress in meeting the requirements of the specific Local Control Funding Formula (LCFF) priority.
- Report the results as part of a non-consent item at the same public meeting of the local governing board/body at which the Local Control and Accountability Plan (LCAP) is adopted.
- Report results to the public through the Dashboard utilizing the SBE-adopted self-reflection tools for each local indicator.

This Quick Guide identifies the approved standards and self-reflection tools that an LEA will use to report its progress on the local indicators.

## Local Indicators

The local indicators address the following state priority areas:

### **Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities (LCFF Priority 1)**

LEAs will provide the information below:

- Number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home
- Number of identified instances where facilities do not meet the “good repair” standard (including deficiencies and extreme deficiencies)

Note: The requested information are all data elements that are currently required as part of the School Accountability Report Card (SARC).

Note: LEAs are required to report the following to their local governing board/body in conjunction with the adoption of the LCAP:

- The LEA’s Teacher Assignment Monitoring and Outcome data available at <https://www.cde.ca.gov/ds/ad/tamo.asp>.
- The number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home, and
- The number of identified instances where facilities do not meet the “good repair” standard (including deficiencies and extreme deficiencies)

## **Implementation of State Academic Standards (LCFF Priority 2)**

The LEA annually measures its progress implementing state academic standards; the LEA then reports the results to its local governing board/body at the same public meeting at which the LCAP is adopted and reports to educational partners and the public through the Dashboard.

### **Parent and Family Engagement (LCFF Priority 3)**

This measure addresses Parent and Family Engagement, including how an LEA builds relationships between school staff and families, builds partnerships for student outcomes and seeks input for decision-making.

LEAs report progress of how they have sought input from parents in decision-making and promoted parent participation in programs to its local governing board or body using the SBE-adopted self-reflection tool for Priority 3 at the same public meeting at which the LEA adopts its LCAP, and reports to educational partners and the public through the Dashboard.

### **School Climate (LCFF Priority 6)**

The LEA administers an annual local climate survey that captures a valid measure of student perceptions of school safety and connectedness, in at least one grade within each grade span(s) the LEA serves (e.g., TK-5, 6-8, 9-12), and reports the results to its local governing board/body at the same public meeting at which the LCAP is adopted and to educational partners and the public through the Dashboard.

### **Access to a Broad Course of Study (LCFF Priority 7)**

The LEA annually measures its progress in the extent to which students have access to, and are enrolled in, a broad course of study that includes the adopted courses of study specified in the California Education Code (EC) for Grades 1-6 and Grades 7-12, as applicable, including the programs and services developed and provided to unduplicated students and individuals with exceptional needs; the LEA then reports the results to its local governing board/body at the same public meeting at which the LCAP is adopted and reports to educational partners and the public through the Dashboard.

### **Coordination of Services for Expelled Students – County Office of Education (COE) Only (LCFF Priority 9)**

The COE annually measures its progress in coordinating services for foster youth; the COE then reports the results to its local governing board/body at the same public meeting at which the LCAP is adopted and reports to educational partners and the public through the Dashboard.

### **Coordination of Services for Foster Youth – COE Only (LCFF Priority 10)**

The COE annually measures its progress in coordinating services for foster youth; the COE then reports the results to its local governing board/body at the same public meeting at which the LCAP is adopted and reports to educational partners and the public through the Dashboard.

# Self-Reflection Tools

An LEA uses the self-reflection tools included within the Dashboard to report its progress on the local performance indicator to educational partners and the public.

The self-reflection tools are embedded in the web-based Dashboard system and are also available in Word document format. In addition to using the self-reflection tools to report its progress on the local performance indicators to educational partners and the public, an LEA may use the self-reflection tools as a resource when reporting results to its local governing board. The approved self-reflection tools are provided below.

## Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities (LCFF Priority 1)

LEAs will provide the information below:

- Number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home
- Number of identified instances where facilities do not meet the “good repair” standard (including deficiencies and extreme deficiencies)

Note: The requested information are all data elements that are currently required as part of the School Accountability Report Card (SARC).

Note: LEAs are required to report the following to their local governing board/body in conjunction with the adoption of the LCAP:

- The LEA’s Teacher Assignment Monitoring and Outcome data available at <https://www.cde.ca.gov/ds/ad/tamo.asp>.
- The number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home, and
- The number of identified instances where facilities do not meet the “good repair” standard (including deficiencies and extreme deficiencies)

Academic Year	Total Teaching FTE	Clear	Out-of-Field	Intern	Ineffective	Incomplete	Unknown	N/A
2024-2025	6.5	7	0	0	0	0	0	0

Access to Instructional Materials	Number	Percent
Students Without Access to Own Copies of Standards-Aligned Instructional Materials for Use at School and at Home	0	0

Facility Conditions	Number
Identified Instances Where Facilities Do Not Meet The “Good Repair” Standard (Including Deficiencies and Extreme Deficiencies)	0

## Implementation of State Academic Standards (LCFF Priority 2)

LEAs may provide a narrative summary of their progress in the implementation of state academic standards based on locally selected measures or tools (Option 1). Alternatively, LEAs may complete the optional reflection tool (Option 2).

### OPTION 1: Narrative Summary (Limited to 3,000 characters)

In the narrative box provided on the Dashboard, identify the locally selected measures or tools that the LEA is using to track its progress in implementing the state academic standards adopted by the state board and briefly describe why the LEA chose the selected measures or tools.

Additionally, summarize the LEA’s progress in implementing the academic standards adopted by the SBE, based on the locally selected measures or tools. The adopted academic standards are:

- English Language Arts (ELA) – Common Core State Standards for ELA
- English Language Development (ELD) (Aligned to Common Core State Standards for ELA)
- Mathematics – Common Core State Standards for Mathematics
- Next Generation Science Standards
- History-Social Science
- Career Technical Education
- Health Education Content Standards
- Physical Education Model Content Standards
- Visual and Performing Arts
- World Language

## Implementation of State Academic Standards (LCFF Priority 2)

### OPTION 2: Reflection Tool

#### Recently Adopted Academic Standards and/or Curriculum Frameworks

1. Rate the LEA’s progress in providing professional learning for teaching to the recently adopted academic standards and/or curriculum frameworks identified below.

- Rating Scale (lowest to highest):
- 1 - Exploration and Research Phase
  - 2 - Beginning Development
  - 3 - Initial Implementation
  - 4 - Full Implementation
  - 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA				4	
ELD (Aligned to ELA Standards)			3		
Mathematics – Common Core State Standards for Mathematics			3		
Next Generation Science Standards			3		
History-Social Science			3		

**2. Rate the LEA's progress in making instructional materials that are aligned to the recently adopted academic standards and/or curriculum frameworks identified below available in all classrooms where the subject is taught.**

Rating Scale (lowest to highest):

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA				4	
ELD (Aligned to ELA Standards)				4	
Mathematics – Common Core State Standards for Mathematics				4	
Next Generation Science Standards				4	
History-Social Science				4	

**3. Rate the LEA's progress in implementing policies or programs to support staff in identifying areas where they can improve in delivering instruction aligned to the recently adopted academic standards and/or curriculum frameworks identified below (e.g., collaborative time, focused classroom walkthroughs, teacher pairing).**

Rating Scale (lowest to highest):

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA				4	
ELD (Aligned to ELA Standards)			3		
Mathematics – Common Core State Standards for Mathematics			3		
Next Generation Science Standards				4	
History-Social Science				4	

## Other Adopted Academic Standards

### 4. Rate the LEA's progress implementing each of the following academic standards adopted by the state board for all students.

Rating Scale (lowest to highest):

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5	N/A
Career Technical Education				4		
Health Education Content Standards		2				
Physical Education Model Content Standards		2				
Visual and Performing Arts			3			
World Language	1					

## Support for Teachers and Administrators

### 5. Rate the LEA's success at engaging in the following activities with teachers and school administrators during the prior school year (including the summer preceding the prior school year).

Rating Scale (lowest to highest):

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
Identifying the professional learning needs of groups of teachers or staff as a whole				4	
Identifying the professional learning needs of individual teachers				4	
Providing support for teachers on the standards they have not yet mastered			3		

## Optional Narrative (Limited to 1,500 characters)

### 6. Provide any additional information in the text box provided in the Dashboard that the LEA believes is relevant to understanding its progress implementing the academic standards adopted by the state board.

For Grades 7-12, including students working independently off campus, Fusion uses the Edmentum online curriculum which is continually updated to meet state standards. Professional development is provided to new and continuing faculty and staff in the curriculum platform. In addition, Fusion Charter faculty and staff provide peer support and training in differentiating instruction with an at-risk population of students, many of whom have experienced trauma.

## Parental Involvement and Family Engagement (LCFF Priority 3)

### Introduction

Family engagement is an essential strategy for building pathways to college and career readiness for all students and is an essential component of a systems approach to improving outcomes for all students. More than 30 years of research has shown that family engagement can lead to improved student outcomes (e.g., attendance, engagement, academic outcomes, social emotional learning, etc.).

Consistent with the California Department of Education's (CDE's) Family Engagement Toolkit: <sup>1</sup>

- Effective and authentic family engagement has been described as an intentional partnership of educators, families and community members who share responsibility for a child from the time they are born to becoming an adult.
- To build an effective partnership, educators, families, and community members need to develop the knowledge and skills to work together, and schools must purposefully integrate family and community engagement with goals for students' learning and thriving.

The LCFF legislation recognized the importance of family engagement by requiring LEAs to address Priority 3 within their LCAP. The self-reflection tool described below enables LEAs to reflect upon their implementation of family engagement as part of their continuous improvement process and prior to updating their LCAP.

For LEAs to engage all families equitably, it is necessary to understand the cultures, languages, needs and interests of families in the local area. Furthermore, developing family engagement policies, programs, and practices needs to be done in partnership with local families, using the tools of continuous improvement.

### Instructions

This self-reflection tool is organized into three sections. Each section includes research and evidence-based practices in family engagement:

1. Building Relationships between School Staff and Families
2. Building Partnerships for Student Outcomes
3. Seeking Input for Decision-Making

Based on an evaluation of data, including educational partner input, an LEA uses this self-reflection tool to report on its progress successes and area(s) of need related to family engagement policies, programs, and practices. This tool will enable an LEA to engage in continuous improvement and determine next steps to make improvements in the areas identified. The results of the process should be used to inform the LCAP and its development process, including assessing prior year goals, actions and services and in modifying future goals, actions, and services in the LCAP.

LEAs are to implement the following self-reflection process:

1. Identify the diverse educational partners that need to participate in the self-reflection process in order to ensure input from all groups of families, staff and students in the LEA, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.
2. Engage educational partners in determining what data and information will be considered to complete the self-reflection tool. LEAs should consider how the practices apply to families of all student groups, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.

3. Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each of the 12 practices using the following rating scale (lowest to highest):
  - 1 – Exploration and Research
  - 2 – Beginning Development
  - 3 – Initial Implementation
  - 4 – Full Implementation
  - 5 – Full Implementation and Sustainability
4. Based on the analysis of educational partner input and local data, respond to each of the prompts pertaining to each section of the tool.
5. Use the findings from the self-reflection process to inform the annual update to the LCAP and the LCAP development process, as well as the development of other school and district plans.

## Sections of the Self-Reflection Tool

### Section 1: Building Relationships Between School Staff and Families

Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Practices	Rating Scale Number
1. Rate the LEA's progress in developing the capacity of staff (i.e., administrators, teachers, and classified staff) to build trusting and respectful relationships with families.	5
2. Rate the LEA's progress in creating welcoming environments for all families in the community.	5
3. Rate the LEA's progress in supporting staff to learn about each family's strengths, cultures, languages, and goals for their children.	4
4. Rate the LEA's progress in developing multiple opportunities for the LEA and school sites to engage in 2-way communication between families and educators using language that is understandable and accessible to families.	5

### Building Relationships Dashboard Narrative Boxes (Limited to 3,000 characters)

1. Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Building Relationships Between School Staff and Families.

One of Fusion Charter's greatest strengths is our dedicated and caring staff. During the 2024-2025 school year our staff engaged in additional professional development in assessment and social-emotional approaches, with a focus on building rapport individually and in group circles. Teachers and staff received training to conduct home visits for our families. Teachers are trained in the use of our Parent communication system, ParentSquare and are able to communicate through the program to parents in their chosen language. All students upon enrollment in Fusion participate in an orientation, which includes participation in a circle with their parent/guardian. They are given a tour of the school and meet staff such as the counselor, campus supervisor and their teacher. Parents are invited to our monthly Site Council meetings. Parents were surveyed and asked questions in regards to student services, internet needs and have an opportunity to provide Fusion with general input.

We held multiple family events in the 24-25 school year. We held 3 Family Film Nights, 3 Lunch and Learn Career events, Back to School night and an annual award ceremony. In October we held a Fall Festival organized by our student council for our families and the local community. We had the largest attendance to date. We also continued to build community support for our school garden and agriscience projects, including participation in Love Turlock Day on April 26, where community volunteers completed improvements to our chicken coop area and the school garden.

2. Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Building Relationships Between School Staff and Families.

Fusion will focus on personal phone calls and home visits to give Fusion personnel an opportunity to promote school and community support for students in need of improved school attendance. Students and their family members will also receive information about transportation options, check for adequate internet access for chromebooks issued by the school, and receive invitations to extracurricular activities that increase connectedness to school. We will collect data about improved school attendance and increased parental involvement in school activities following the visits.

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Building Relationships Between School Staff and Families.

In conjunction with Fusion's Community Schools approach, underrepresented families will be invited to participate in the needs assessment and other activities to promote the collaboration between school and home.

**Section 2: Building Partnerships for Student Outcomes**

Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Practices	Rating Scale Number
5. Rate the LEA's progress in providing professional learning and support to teachers and principals to improve a school's capacity to partner with families.	4
6. Rate the LEA's progress in providing families with information and resources to support student learning and development in the home.	3
7. Rate the LEA's progress in implementing policies or programs for teachers to meet with families and students to discuss student progress and ways to work together to support improved student outcomes.	3
8. Rate the LEA's progress in supporting families to understand and exercise their legal rights and advocate for their own students and all students.	3

**Building Partnerships Dashboard Narrative Boxes (Limited to 3,000 characters)**

1. Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Building Partnerships for Student Outcomes.

Fusion applied for and was granted a College and Career Access Pathways grant (CCAP) from the CDE and will use the grant funds to strengthen our collaboration with college and vocational training opportunities for our students. We have coordinated with local partners to create Lunch and Learn events where our students and their families can learn about local career programs and career options.

2. Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Building Partnerships for Student Outcomes.

Our focus areas continue to be Social-Emotional learning and preparation for future careers and other adult life skills.

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Building Partnerships for Student Outcomes.

Fusion has a student support advocate to address the engagement of underrepresented families and will include additional activities through dual enrollment and community school activities.

### Section 3: Seeking Input for Decision-Making

Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Practices	Rating Scale Number
9. Rate the LEA's progress in building the capacity of and supporting principals and staff to effectively engage families in advisory groups and with decision-making.	3
10. Rate the LEA's progress in building the capacity of and supporting family members to effectively engage in advisory groups and decision-making.	4
11. Rate the LEA's progress in providing all families with opportunities to provide input on policies and programs, and implementing strategies to reach and seek input from any underrepresented groups in the school community.	4
12. Rate the LEA's progress in providing opportunities to have families, teachers, principals, and district administrators work together to plan, design, implement and evaluate family engagement activities at school and district levels.	3

### Seeking Input for Decision-Making Dashboard Narrative Boxes (Limited to 3,000 characters)

1. Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Seeking Input for Decision-Making.

We provide many opportunities for our educational partners to provide input towards Fusion Charters decision making. Parents are invited to attend our Monthly Site council meetings as are our students and especially our student council members. They are also invited to provide their input on the discussion topics of the Monthly Site Council meetings if they are unable to attend in person or by teleconference. Parents are also surveyed through phone calls at least twice a year and were invited to participate in the California Healthy Kids Parent Survey. Many of our parents are Spanish speakers and we are fortunate to have bilingual staff that can communicate in their language. Staff members participate in ongoing strategic planning on Friday afternoons throughout the year. The Fusion Leadership Team meets weekly to prepare plans and agendas for meetings.

2. Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Seeking Input for Decision-Making.

Our focus area for improvement is in encouraging parents and community members to attend our site council and advisory meetings. We continue to have success in regards to the attendance of our family events and parent survey participation.

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Seeking Input for Decision-Making.

The Community Schools grant has provided for a bilingual student support advocate to address the engagement of underrepresented families.

## School Climate (LCFF Priority 6)

### Introduction

The initial design of the Local Control Funding Formula recognized the critical role that positive school conditions and climate play in advancing student performance and equity. This recognition is grounded in a research base demonstrating that a positive school climate directly impacts indicators of success such as increased teacher retention, lower dropout rates, decreased incidences of violence, and higher student achievement.

In order to support comprehensive planning, LEAs need access to current data. The measurement of school climate provides LEAs with critical data that can be used to track progress in school climate for purposes of continuous improvement, and the ability to identify needs and implement changes to address local needs.

### Introduction

LEAs are required, at a minimum, to annually administer a local climate survey. The survey must:

- Capture a valid measure of student perceptions of school safety and connectedness in at least one grade within each grade span the LEA serves (e.g. TK-5, 6-8, 9-12); and
- At a minimum, report disaggregated data by student groups identified in California Education Code 52052, when such data is available as part of the local school climate survey.

Based on the analysis of local data, including the local climate survey data, LEAs are to respond to the following three prompts. Each prompt response is limited to 3,000 characters. An LEA may provide hyperlink(s) to other documents as necessary within each prompt:

**Prompt 1 (DATA):** Describe the local climate survey data, including available data disaggregated by student groups. LEAs using surveys that provide an overall score, such as the California Healthy Kids Survey, are encouraged to report the overall score for all students as well as available student group scores. Responses may also include an analysis of a subset of specific items on a local survey and additional data collection tools that are particularly relevant to school conditions and climate.

In Spring 2024 Fusion students participated in the Healthy Kids Survey of perceptions of school safety and overall feelings of connection to school within the past 12 months. Our students also participated in an additional survey through the Seity Health program. 73 students answered in the Seity Health survey. Grade 9 was the only grade with a sample size large enough to produce data in the California Healthy Kids Survey. In the Seity Survey 94% of students responded “No” when asked if they had been bullied in the last two weeks. 97% of students responded “Yes” when asked if they feel welcome when they enter school. 76% of students reported that they felt there were high expectations from the adults at school and 58% felt there were caring adults at school. Not enough students answered questions regarding safety. We also surveyed our parents at the end of the semester and when asked how safe they felt their student was on our campus, 61% of the parents surveyed felt their student was safer at Fusion than their last school. 27% of parents felt their student was as safe as their last school. When asked in an anonymous survey, 91% of the parents surveyed responded that they agreed or strongly agreed with the statement “My student feels safe at school”. When asked if they feel welcome, 95% of parents surveyed felt welcome in our school.

**Prompt 2 (MEANING):** Describe key learnings, including identified needs and areas of strength determined through the analysis of data described in Prompt 1, including the available data disaggregated by student group.

Overall, students report a positive climate at Fusion. They feel safe, connected to caring adults at the school and feel their teachers are fair and have high expectations for them. Small school size and high staff to student ratio provides help for students struggling with health and safety issues. A campus supervisor and full time school counselor are available daily, with a therapy dog on campus a couple of days a week.

**Prompt 3 (USE):** Describe any changes to existing plans, policies, or procedures that the LEA determines necessary in order to address areas of need identified through the analysis of local data and the identification of key learnings. Include any revisions, decisions, or actions the LEA has, or will, implement for continuous improvement purposes.

We will be conducting the California Healthy Kids Survey again next spring and focus on increasing student participation. Fusion staff will continue to engage in professional development in social-emotional approaches, with a focus on building rapport individually and in group circles.

## Access to a Broad Course of Study (LCFF Priority 7)

LEAs provide a narrative summary of the extent to which all students have access to and are enrolled in a broad course of study by addressing, at a minimum, the following four prompts:

1. Briefly identify the locally selected measures or tools that the LEA is using to track the extent to which all students have access to, and are enrolled in, a broad course of study, based on grade spans, unduplicated student groups, and individuals with exceptional needs served. (response limited to 1,500 characters)

Fusion uses an analysis of transcripts for incoming students to make sure that each student is assigned to the course of study that best meets each student's needs. For example, entering foster youth in Grades 11 and 12 are enrolled in only core academic courses required for high school graduation based on their eligibility under AB 167 for a reduction to the 130 credits necessary for graduation under California Education Code. For students who are eligible, our counselor works with the student and the Educational Rights Holder to determine if the reduction in credits is in the student's best interests in receiving a high school diploma and continuing to post-secondary study or if a fifth year of high school would better meet individual needs. All students have access to a broad course of study through the extensive library of Edmentum courses. All students have access to timely nonfiction reading, vocabulary and writing curriculum through the Newsela platform. Special education teachers work closely with students and general education teachers to accommodate or modify the course assignments so that all students have access and can achieve mastery.

2. Using the locally selected measures or tools, summarize the extent to which all students have access to, and are enrolled in, a broad course of study. The summary should identify any differences across school sites and student groups in access to, and enrollment in, a broad course of study, and may describe progress over time in the extent to which all students have access to, and are enrolled in, a broad course of study. (response limited to 1,500 characters)

Fusion is a single school LEA. All students are enrolled in a broad course of study with core curriculum provided by a site license with Edmentum for online curriculum and a site license for Newsela reading engagement content and Social Emotional learning library. Students in Grades 11 and 12 also have access to concurrent enrollment in local community colleges, based on student interest. The resource specialist supports students with exceptional needs to provide services required by their IEPs in meeting graduation standards.

3. Given the results of the tool or locally selected measures, identify the barriers preventing the LEA from providing access to a broad course of study for all students. (response limited to 1,500 characters)

Barriers to access the curriculum include lack of computer and/or internet access at home and lack of transportation to get to Fusion for support from credentialed teachers, tutors and teacher assistants. Barriers to college preparatory coursework include credit deficiency and needs for intervention to address gaps in learning in prior grades.

4. In response to the results of the tool or locally selected measures, what revisions, decisions, or new actions will the LEA implement, or has the LEA implemented, to ensure access to a broad course of study for all students? (response limited to 1,500 characters)

Fusion has been able to purchase and provide more wi-fi enabled chromebooks to students without internet access at home and non-connected chromebooks to students with home internet access but without a device to access their coursework. Fusion's schedule has multiple sessions and late afternoon sessions in order to accommodate families' transportation needs. The local city bus continues to be free with a student ID. Fusion provides free student ID's and student ID replacements as needed. Fusion has a shuttle service to provide transportation for students who are unable to access the city bus because of distance from a bus stop or safety concerns.

## Coordination of Services for Expelled Students – COE Only (LCFF Priority 9)

**Assess the degree of implementation of the progress in coordinating instruction for expelled students in your county.**

Rating Scale (lowest to highest):

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Coordinating Instruction	1	2	3	4	5
1. Assessing status of triennial plan for providing educational services to all expelled students in the county, including:	[No response required]	[No response required]	[No response required]	[No response required]	[No response required]
a. Review of required outcome data.					
b. Identifying existing educational alternatives for expelled pupils,					

Coordinating Instruction	1	2	3	4	5
gaps in educational services to expelled pupils, and strategies for filling those service gaps.					
c. Identifying alternative placements for pupils who are expelled and placed in district community day school programs, but who fail to meet the terms and conditions of their rehabilitation plan or who pose a danger to other district pupils.					
2. Coordinating on development and implementation of triennial plan with all LEAs within the county.					
3. Establishing ongoing collaboration and policy development for transparent referral process for LEAs within the county to the county office of education or other program options, including dissemination to all LEAs within the county a menu of available continuum of services for expelled students.					
4. Developing memorandum of understanding regarding the coordination of partial credit policies between district of residence and county office of education.					

## Coordination of Services for Foster Youth – COE Only (LCFF Priority 10)

**Assess the degree of implementation of coordinated service program components for foster youth in your county.**

Rating Scale (lowest to highest):

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Coordinating Services	1	2	3	4	5
1. Establishing ongoing collaboration and supporting policy development, including establishing formalized information sharing agreements with child welfare, probation, Local Education Agency (LEAs), the courts, and other organizations to support determining the proper educational placement of foster youth (e.g., school of origin versus current residence, comprehensive versus alternative school, and regular versus special education).					
2. Building capacity with LEA, probation, child welfare, and other organizations for purposes of implementing school-based support infrastructure for foster youth intended to improve educational outcomes (e.g., provide regular professional development with the Foster Youth Liaisons to facilitate adequate transportation services for foster youth).					
3. Providing information and assistance to LEAs regarding the educational needs of foster youth in order to improve educational outcomes.					
4. Providing direct educational services for foster youth in LEA or county-operated programs provided the school district has certified that specified services cannot be provided or funded using other sources, including, but not limited to, Local Control Funding Formula, federal, state or local funding.					
5. Establishing ongoing collaboration and supporting development of policies and procedures that facilitate expeditious transfer of records, transcripts, and other relevant educational information.					
6. Facilitating the coordination of post-secondary opportunities for youth by engaging with systems partners, including, but not limited to, child welfare transition planning and independent living services, community colleges or universities, career technical education, and workforce development providers.					

<b>Coordinating Services</b>	<b>1</b>	<b>2</b>	<b>3</b>	<b>4</b>	<b>5</b>
7. Developing strategies to prioritize the needs of foster youth in the community, using community-wide assessments that consider age group, geographical area, and identification of highest needs students based on academic needs and placement type.					
8. Engaging in the process of reviewing plan deliverables and of collecting and analyzing LEA and COE level outcome data for purposes of evaluating effectiveness of support services for foster youth and whether the investment in services contributes to improved educational outcomes for foster youth.
